Camp won three gold medals in the whip-cracking competition at the annual Wild West Arts Club convention in Las Vegas and was named "Best New Whip Cracker." The whip crack is the first, man-made sonic boom. The cracker (a small piece of nylon connected to the end of a whip) moves at 750 to 900 miles per hour. The sound when it reaches this speed is the sonic boom. Camp has set a Guinness Book World Record.
